Block 25

The adidas Sand Bag enables you to add rotation and resistance to your workouts and perform both single and two handed moves. The bag encourages core muscle activation when held by any of its five grab handles, enabling you to push, pull and even throw the bag to engage multiple muscle groups in every repetition.

Doubling up as a kettlebell, barbell or dumbbell for fast dynamic moves, the adidas Sand Bag has been packed with a double skin liner to ensure it doesn't become unstable.

The adidas 10kg Weight Vest has been specifically designed to distribute the weight evenly across the torso whilst also enabling the wearer to move freely. It also incorporates a wide Velcro® waist belt so that it can easily be worn over layers of training apparel.

- One size fits all

- Weights include: 2 x 0.5kg, 4 x 1kg, 1 x 1.25kg and 1 x 2.5kg

14:1

A.86.6-

The acrylic fibre material is specifically engineered to absorb moisture, enhancing the grip of the surface when dampened by sweat, making the premium yoga strap ideal for both hot yoga and regular yoga. The additional elasticity that acrylic fibre has over polyester is aided by the slightly open weave that gives the premium strap a little bit more give, whilst still remaining stable and much steadier than an elastic alternative. Once used the strap can be machine washed at a low heat with the knowledge that it is colour fast and won't fade.

more advanced poses you've been leading up to.

The 250cm long adidas Yoga Strap features a robust 'D-ring' buckle which holds it in place, providing enough tautness whilst ensuring your movement is not restricted in any way to help you progress in your practice.

The strap's soft yet tough texture means it won't chafe on your skin and its durability means it'll keep its shape through consistent use.

T-16 TREADMILL AVEN-10421BK

38

20

100

Care and all and

Build endurance on the T-16 as part of your training. Run for longer, go further.

CREATE ENERGY

Cardiovascular endurance is vital to fitness. It enhances your muscles' ability to use oxygen and creates energy for movement. With this energy, you keep going - you run, cycle and train for longer.

RESPONSIVE CUSHIONING

The adidas T-16 Treadmill features innovative cushioning in its large 153 x 51cm running deck. This technology ensures a soft landing to minimise running injuries and harsh impact on the joints, which in turn means the user can effectively build their endurance performance at home.

levels.

MONITOR YOUR HEART RATE

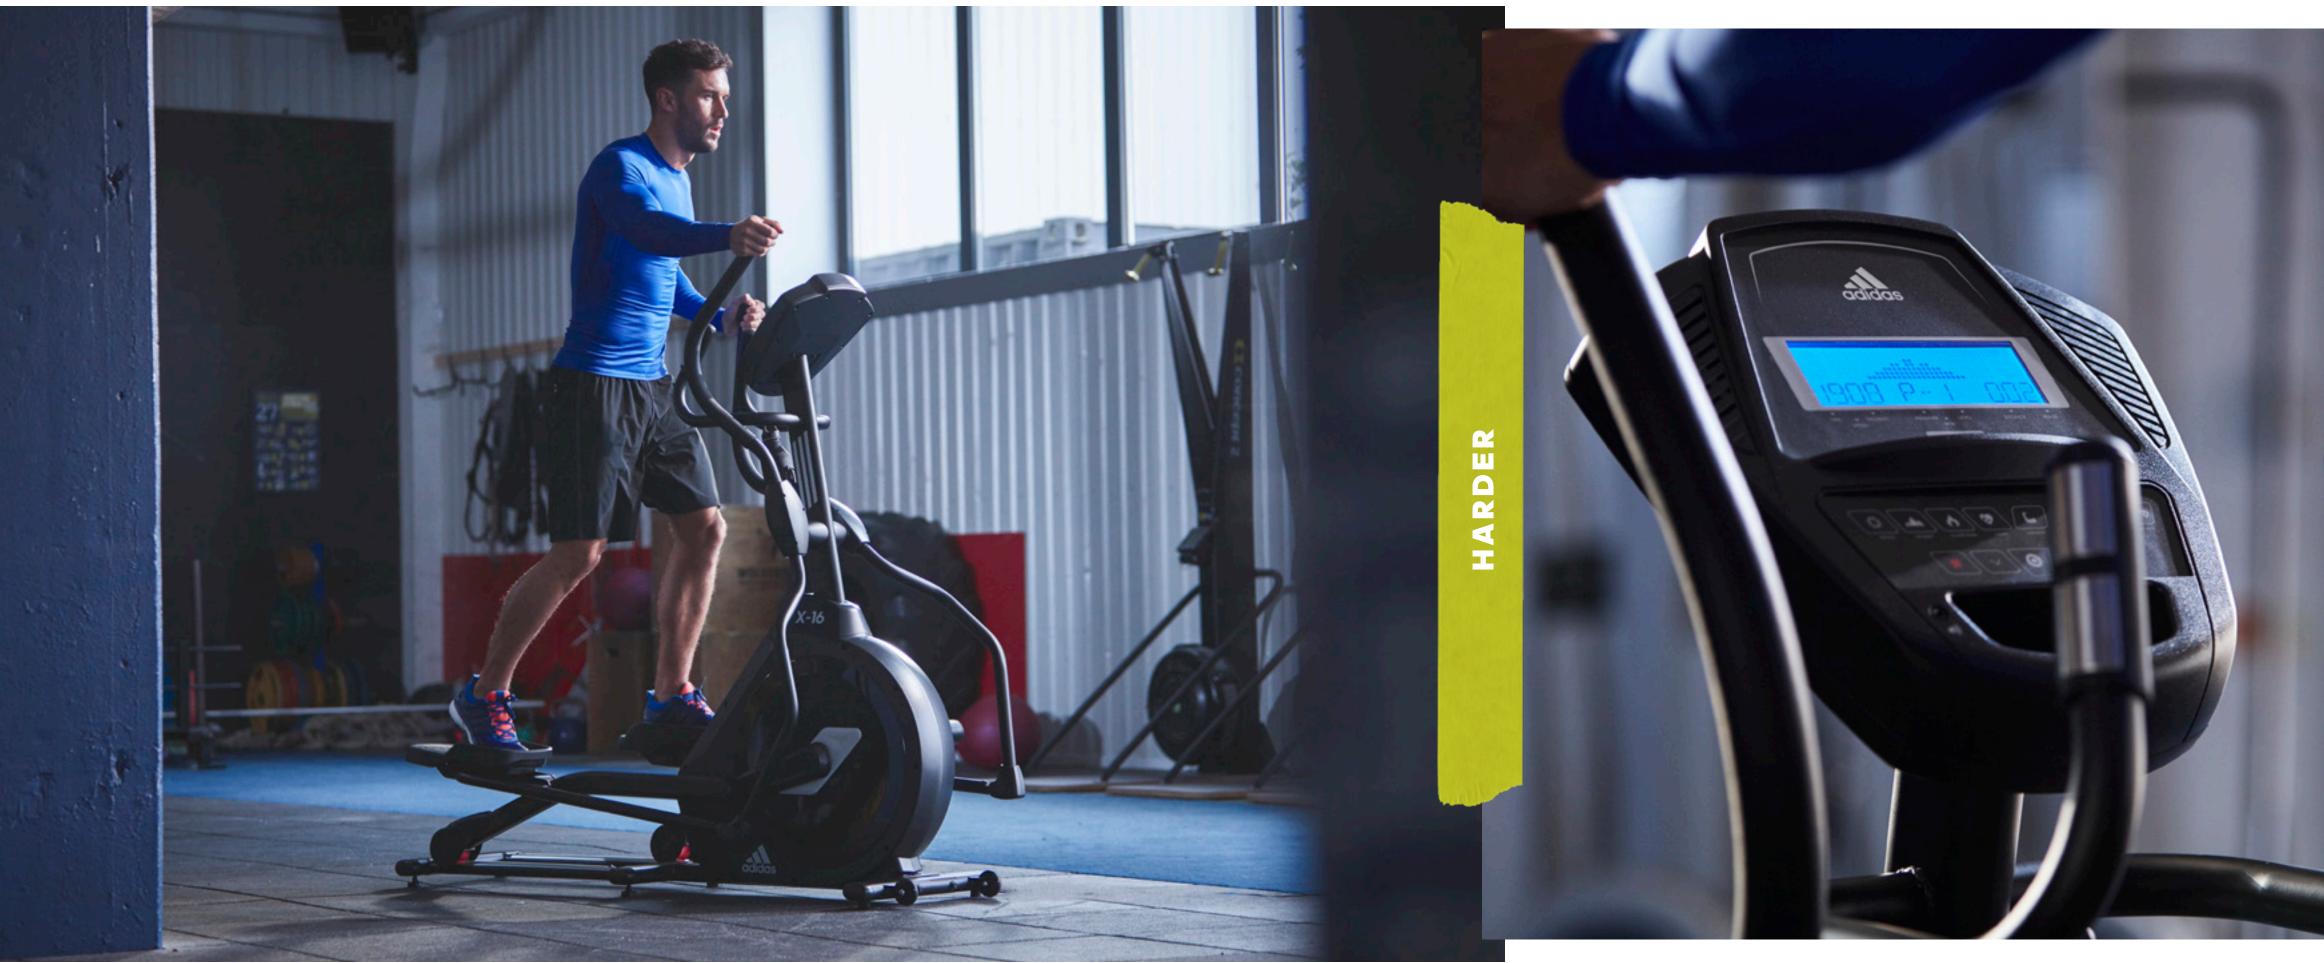

You can also monitor your heart rate throughout your workout via the hand pulse sensors on the treadmill handlebars. Monitoring your heart rate is extremely useful when training as it tells you how hard your heart is working during exercise, or whether you need to pick up pace to get into ideal heart rate optimisation zones.

VARIABLE INCLINE & SPEEDS

With a robust 2.75HP motor, the adidas T-16 is an ideal choice for heart rate training, enabling the user to run at various speeds and incline levels to increase their heart rate. The treadmill can reach a max. speed of 18kph and its incline can be adjusted to 15 different

FEATURES

- 15 levels of electronic incline
- 153 x 51cm running area
- 2.75HP motor power
- 1-18kph speed range
- 24 pre-set programs, 2 HRC, quick start, target time, distance and calories
- 5 LCD blue backlit display
- MP3 compatible with integrated speakers
- Hand pulse sensors for heart rate training
- Innovative cushioning and suspension system
- Integrated cooling fan
- Soft drop folding mechanism
- 130kg maximum user weight
- Setup dimensions: 187.5 (L) x 87.5 (W) x 140 (H) cm
- Folded dimensions: 121 (L) x 87.5 (W) x 160 (H) cm

X-16 ELLIPTICAL AVEN-10411BK

38

11

1

And the second

Stylish, eye-catching design meets cutting-edge features which turn ordinary training into an extraordinary experience.

Though elliptical training places less stress on the joints, the X-16 pushes you further and challenges your cardio limit with minimal perception of fatigue.

SMOOTH AND SILENT TRAINING

The X-16's silent 8.5kg front-drive flywheel operation means you can exercise at home, wherever and whenever, with little disruption.

ALL IN YOUR STRIDE

Stride length can make a big impact on the effectiveness of your workout. The X-16's 18 inch stride length combined with 20 electronic levels of resistance is ideal for working out with higher intensity.

MONITOR YOUR HEART RATE

Rely on the integrated hand pulse sensors to give you an indication of your heart rate during exercise.

Minimalist black and white with the three stripes: the X-16 keeps it simple and sophisticated.

WORKING IN HARMONY

Monitor all key functions and workout feedback on the X-16's backlit LCD display, and plug in your MP3 device to train to your chosen playlist.

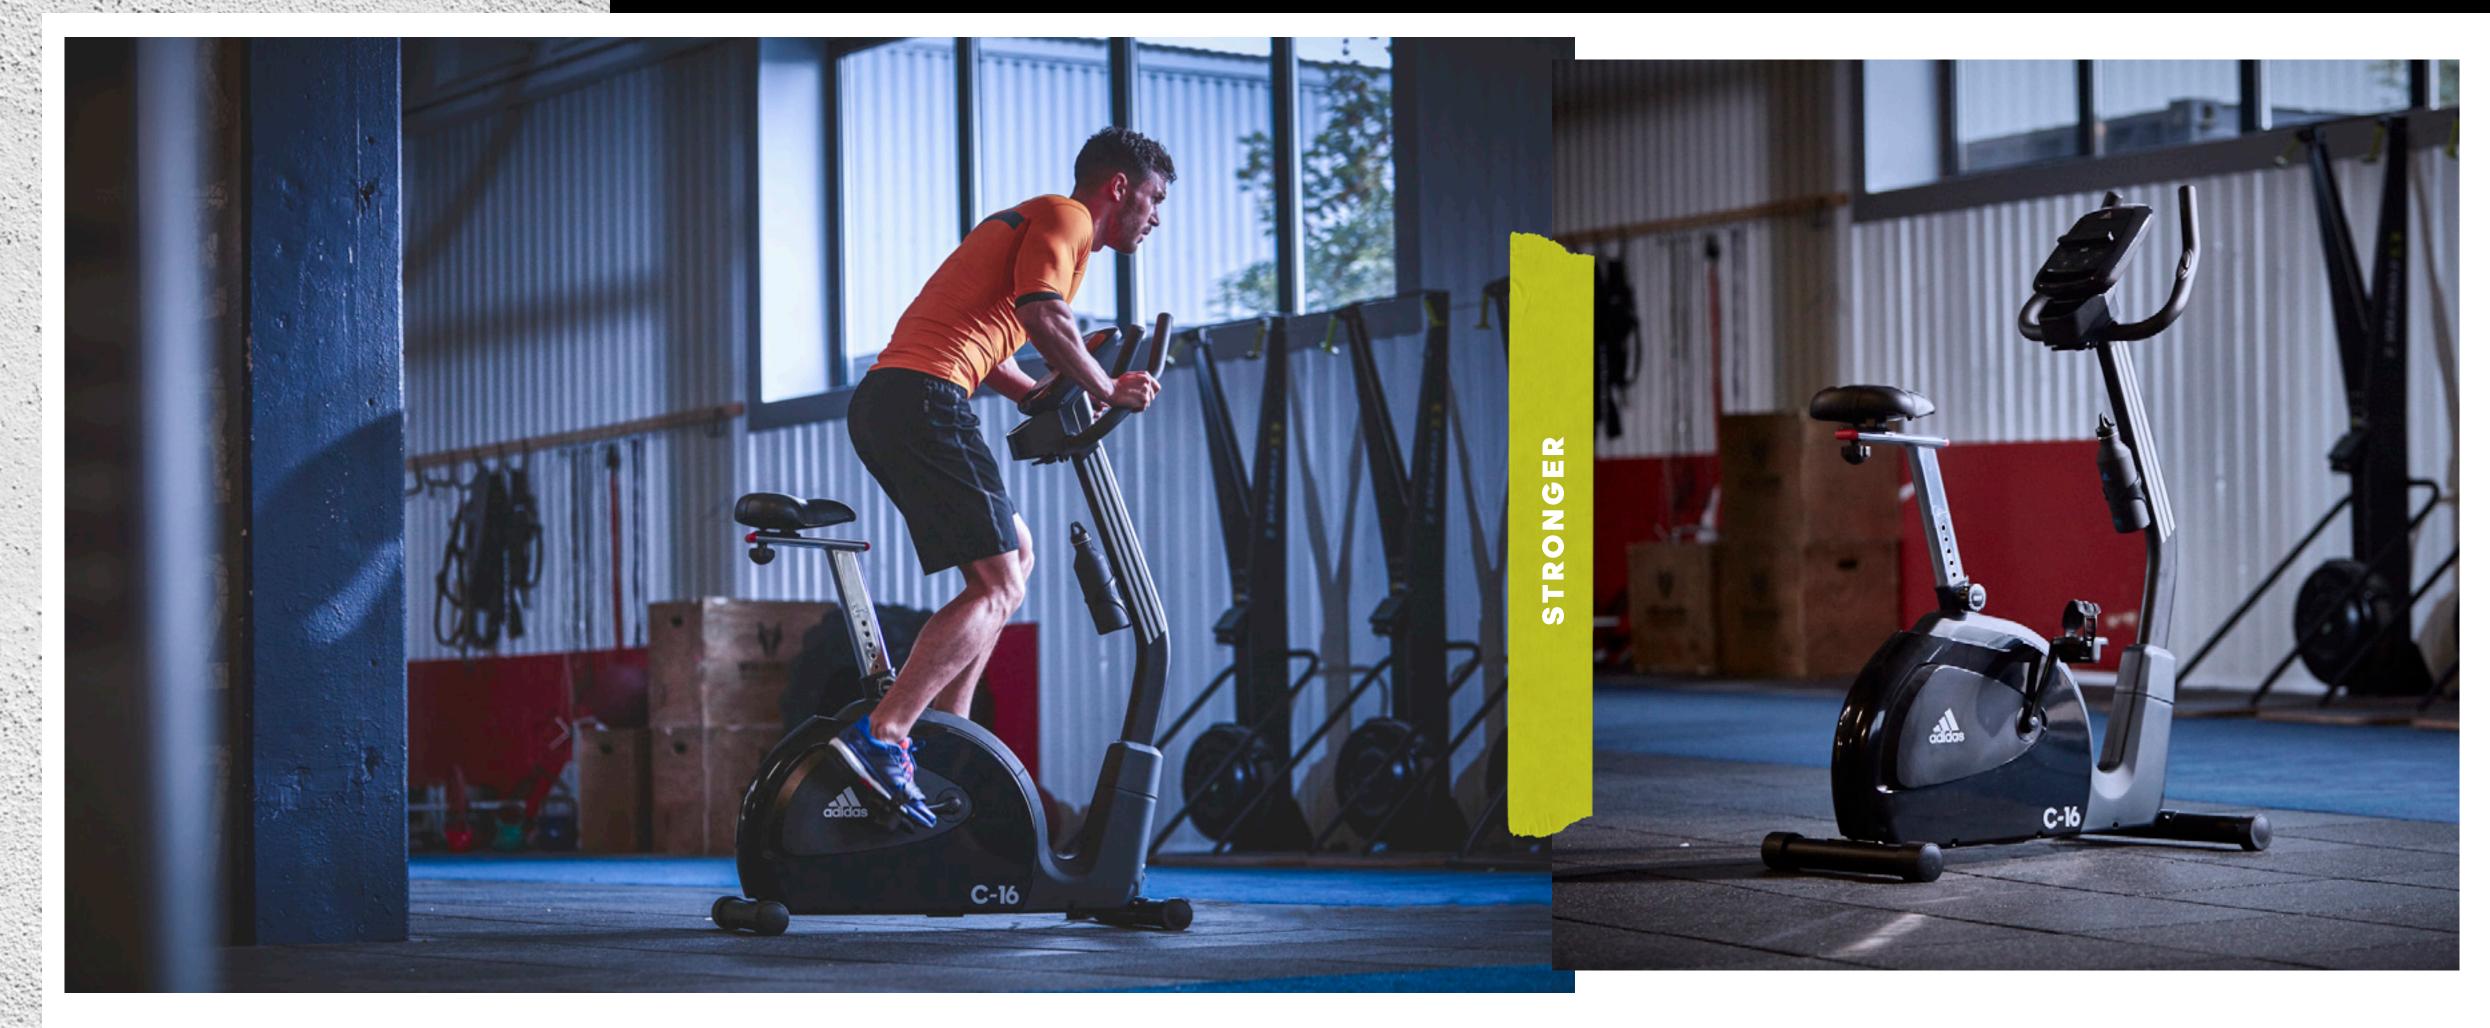

Simple icons represent each feature from programs, speed, interval training, user profiles as well as quick start and stop buttons.

EXCEPTIONAL DESIGN IN MIND

FEATURES

- Front-drive elliptical with 8.5kg flywheel
- 18 inch stride length
- 20 electronic resistance levels
- 7 workout programs
- Blue backlit LCD display
- Integrated hand pulse sensors
- MP3 compatible with built-in speaker
- Setup dimensions: 153 (L) x 55 (W) x 158 (H) cm
- 120kg maximum user weight

Don't choose between style and practicality when you don't have to.

REACH AND EXCEED FITNESS GOALS

With the adidas C-16 Exercise Bike you get performance, reliability and style all-in-one to help you reach and exceed your fitness goals.

This upright indoor bike lets you log your mileage and beat your personal bests in the comfort of your own home. As you pedal, you can monitor your workout performance via the clear and intuitive console system.

SOLID BUILD, SIMPLE ASSEMBLY

The adidas Exercise Bike requires minimal assembly and features integrated transport wheels to ensure it can be moved to any room with ease. It offers a rock solid base with no rocking during more intense, high speed cycling workouts. Plus, self-levelling pedals are - 23 user programs + manual beneficial for easy access as you hop on and off.

WORKOUT VARIETY

keep you on track.

Choose from 24 levels of electronic resistance depending on how hard you want to work during a cycling session. As you move up a level, you'll find the transition is smooth and incremental.

The C-16 offers a variety of features to change up your workout and
